

abberior STED ROADSHOW

Hamburg

2015

June 22-26 *Universitätsklinikum
Hamburg-Eppendorf*

Location:
Campus Forschung
Martinistr. 52

Bring your own samples!

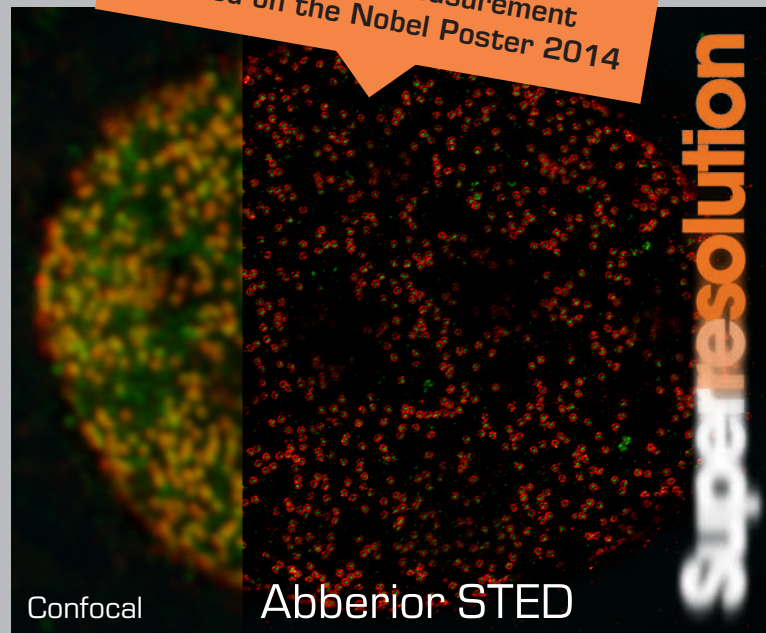

Abberior provides free STAR conjugates (e.g. STAR 580 and STAR 635P) optimized for the Abberior Instruments STED system. We can prepare samples together with you on workbenches installed in our mobile lab.

abberior
beyond barriers

Come and use the brandnew **Abberior Instruments multicolor easy3D STED microscope** with a pulsed 775 STED laser on YOUR campus in our mobile laboratory!

Resolution down to 25x25nm (2D)
or 70x70x80nm (3D)

Abberior STED measurement
featured on the Nobel Poster 2014

FEEDBACK FROM OUR ROADSHOW 2014

"It is amazing that your STED microscope works perfectly in a van"

"I cannot believe the stability of the system"

"To see a resolution below 30 nm in a car is amazing"
